

INSTALLATION

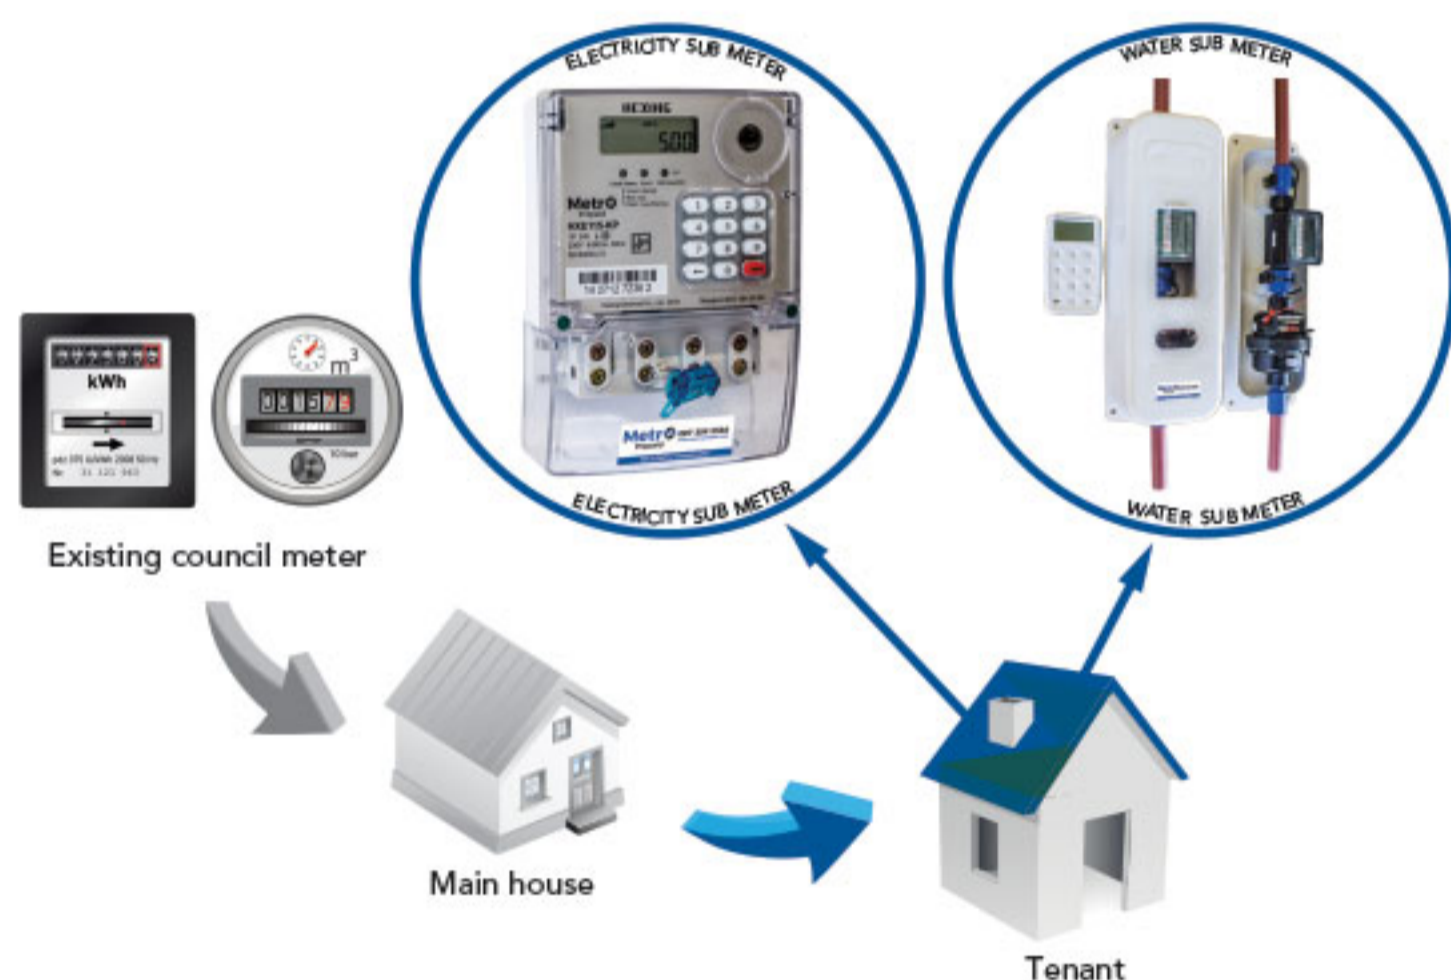

Install as many sub meters as you require per property whilst retaining your council meter to pay for your main supply.

Metro Prepaid sub meters are coded only for use on the **Metro Prepaid** vending network.

Meters can be installed by any technically competent person according to regulations.

Metro Prepaid registered sub meters must be installed after or "down-stream" of a council meter (either prepaid or monthly account).

Water sub meters must be protected by a suspended sediment strainer (sold separately) and wall mounted.

REGISTRATION

Metro Prepaid registers each meter to the owner of the property where it is installed. Join the thousands of property owners that register sub meters with us every month.

Registration can be done telephonically with our Help Desk in as little as 10 minutes.

Registration information includes:

- Property address
- Property owner name, ID and contact number
- Nominated bank account

CONTROL PAYMENTS / CONTROL USAGE

WHO ARE WE

Metro Prepaid helps property owners collect utility payments from tenants.

Property owners can benefit from

Hexing prepaid electricity sub meters and **Utility Systems** prepaid water sub meters at great prices through a national network of wholesalers and retailers.

Once installed, **Metro Prepaid** supplies recharge tokens for these prepaid sub meters through thousands of service points country-wide.

The cost of electricity and water flowing through the prepaid meters is recovered through tokens sold, and is repaid to the owner by **Metro Prepaid** (monthly via EFT).

Prepaid solutions in association with:

HEXING

Metro Prepaid

We also offer **Self Vending**

Disa Selfvend R2,75 incl VAT per token.

Tokens issued within 30 minutes 8am to 8pm

Buy a token from a FLASH vendor

Buy FLASH credit at:

Take your meter number to a store or kiosk displaying:

Buy token using:

Buy a UNIPIN voucher (and follow the instructions on the voucher)

ADVANTAGES TO LANDOWNERS

- Easy control of water bills
- Reduced administration and risk
- Cheaper meters and faster installation
- Option to set your tariff so that commercial tenants pay the **Metro Prepaid** 8.75% (of token value) service fee
- Improved cash flow, water/electricity used through the meter paid back to owner
- State of the art reporting available

ADVANTAGES TO TENANTS

- **Help Desk** on standby every day including weekends from 7am to 10pm to resolve any prepaid sub metering issues
- Convenient token purchase options available
- No unexpected large bills
- Usage awareness helps reduce consumption
- Service fee inclusive of merchant collection fees

When a token is purchased, a 20 digit code is received either on a cash slip or via sms. This token is then punched into the sub meter and the meter is recharged.
